

z.one ultra sp

Ultrasound System

from ZONARE

You demanded better performance from point-of-care ultrasound. You got it.

ZONARE's new z.one *ultra sp* system brings the powerful imaging of ZONARE's Zone Sonography technology to a system with superior ergonomics and ease-of-use. The result is an ultrasound system that is bound to be the most popular in your department.

Ideal for Specialists like you, the z.one *ultra sp* provides a new level of confidence and performance when performing quick exams and procedures on all patients.

Get more for less.

- >> **Unbeatable performance.** The z.one *ultra sp* delivers premium image quality on a large 19" monitor, making ZONARE the system of choice. All in a compact footprint you can take right to the bedside.
- >> **Fast and reliable.** With a 15-second cold boot-up, a multi-transducer port for quick exam changes, and the ability to scan unplugged for up to 3 hours, the z.one *ultra sp* is ready when and where you need it.
- >> **Simple.** With an intuitive user interface, image optimization button, and commonly used keys within a finger stretch, the z.one *ultra sp* is easy to use for all clinicians in your department.

ZONARE

**See where
ease-of-use
and high
performance
meet.**

The z.one ultra sp, from ZONARE
